An executive development workshop designed to sharpen leadership skills, through an interactive learning experience working together with like-minded people designed for like-minded people prepared to take a fresh perspective and new approach to the ever-changing and challenging complexity in the business environment of today.

WHAT SOME OF WHAT OUR PREVIOUS PARTICIPANTS HAVE SAID ABOUT US

“To listen to people’s view on the world, business & life in the format you have created was an absolute eye opener for me.”

“I want to personally thank you for one of the most inspiring experiences of my life.”

“Great sailing, great rivalry, great communion & fellowship, it was a shame to leave and come home. There is little to add.”

“Sailing Adventures defies logic by providing an extremely well managed combination of great competition afloat and a five star entertainment experience ashore, with great food, wine and most importantly, great company”.
